SKILLS

Programming

Python, SQL, Java, C, JavaScript, MATLAB, HTML/CSS

Data & Machine Learning

Pandas, NumPy, Scikit-learn, Matplotlib, Streamlit, OpenCV, Weka

AI & LLMs

Large Language Models, RAG, NLP, Generative AI, AI chatbots

Web & Backend

React.js, Next.js, Node.js, FastAPI, Redux, Bootstrap

Tools

Git/GitHub, Docker, MySQL, Postman, VS Code, Wireshark

- German | Elementary
- Hindi | Native

Karan Lodha

Data Scientist & AI Engineer

MSc student in Data Science, AI & Digital Business at GISMA University of Applied Sciences (Berlin) with a B.E. in Computer Engineering. Practical experience in machine learning, time series forecasting and LLM applications, including RAG systems and AI chatbots built during data science internships. I love working with data and am looking for a data science internship or working student position in Germany.

Experience

Data Science Intern

02/2026 – 06/2026

ScikIQ Data Private Limited, Gurugram, India

- Developed Retrieval-Augmented Generation (RAG) systems for intelligent document retrieval and question answering.
- Built AI chatbot solutions and automated data processing pipelines.
- Applied machine learning and statistical analysis to extract insights from complex datasets for business requirements.

Data Science Intern

01/2025 – 04/2025

PRP Technologies, Ahmedabad, India

- Pre-processed and explored real-world datasets, then built and evaluated predictive models in Python (Pandas, NumPy, Scikit-learn, Matplotlib).
- Created interactive dashboards with Streamlit.

ReactJS Intern

06/2024 – 07/2024

Spectrics Solutions, Ahmedabad, India

- Built responsive, interactive user interfaces with HTML, CSS, JavaScript and React.js.

Education

MSc Data Science, AI and Digital Business

10/2026 – Present

GISMA University of Applied Sciences, Berlin, Germany

B.E. Computer Engineering

2022 – 2025

Vishwakarma Government Engineering College (GTU), Ahmedabad, India

CGPA: 8.59 / 10

Diploma in Computer Engineering

2019 – 2022

Ranchhodlal Chhotlal Technical Institute (GTU), Ahmedabad, India

CGPA: 9.41 / 10

Projects

Time Series Forecasting for Financial Markets

Python and machine learning system that predicts stock price trends from historical data, including preprocessing, model training and visualization.

Credit Card Fraud Detection

Machine learning models in Python that detect fraudulent transactions by analysing transaction behaviour.

Ask Documentor

Web app to upload PDFs and ask questions or get summaries. Built with Next.js, Redux, Docker, Python and FastAPI.

Real-Time Crop Recommendation

Data mining with Python, Weka and k-means clustering to support agricultural decisions using environmental and market data.

Certifications

- Postman Fundamental Student Expert
- Python for Data Science – Simplilearn
- Build Your Own ChatGPT with Open-Source LLMs – LetsUpgrade
- Cyber Security and Ethical Hacking Bootcamp
- JavaScript Zero to Hero
- Graphic Design Course – LetsUpgrade
